PROFESSIONAL SUMMARY

Frontend React Developer and Software Engineering undergraduate passionate about crafting modern, performant web applications. Specialising in React.js, Next.js, responsive UI, and Headless CMS architecture. A graphic design background in Photoshop, Illustrator, and Figma brings a sharp visual eye that elevates every product into a polished, intuitive user experience.

TECHNICAL SKILLS

Frontend:	HTML5, CSS3, JavaScript (ES6+), React.js, Next.js, Tailwind CSS, Bootstrap, Shadcn UI
API Integration:	REST APIs, Axios
CMS / E-Commerce:	WordPress Headless CMS, Shopify
Tools:	Git, GitHub, Vercel, Visual Studio Code
Design:	Adobe Photoshop, Adobe Illustrator, Figma
Other:	Prompt Engineering, Microsoft Office

PROFESSIONAL EXPERIENCE

Shopify Developer — Client Projects

Apr 2026 – Jun 2026

Bagzar (bagzar.com.pk) | MiniWear (miniwear.pk)

- Customised Shopify storefronts using built-in themes and configured payment gateways, store settings, and COD workflows.
- Integrated Leopard and PostEx courier services; managed product listings and guided both stores through to production deployment.

Graphic Designer — Project-Based

Jul 2025 – Sep 2025

Synergy Axis, Remote

- Produced social media graphics, banners, promotional advertisements, and digital marketing assets for diverse client campaigns.
- Enhanced product imagery and website media; collaborated remotely to meet tight deadlines and evolving brand requirements.

FEATURED PROJECTS

FounderFocus

React.js • WordPress Headless CMS • REST API • Axios
founderfocus.tech

- Built a React.js frontend driven by WordPress as a Headless CMS; integrated the REST API via Axios for fully dynamic blog content.
- Engineered blog search and contextual related-article features, delivering a responsive and fast reading experience.

Personal Portfolio

Next.js • Shadcn UI • Framer Motion • Vercel
khuzma.com

- Crafted a responsive portfolio with fluid Framer Motion animations and a reusable Shadcn UI component library.
- Deployed on Vercel with an automated CI/CD pipeline ensuring instant, reliable updates on every push.

ElevenToolz — In Development

SaaS Web Application

- Building an all-in-one social media utility platform — download reels, images, videos, and YouTube transcripts from Instagram, Facebook, X, and YouTube — aimed at content creators and marketers.

TrackMySubscription — In Development

SaaS Web Application

- Developing a subscription-management dashboard that centralises tracking of recurring digital service expenses, segmented by monthly and yearly billing cycles.

EDUCATION

BS Software Engineering

Aug 2024 – Present

University of Central Punjab (UCP), Lahore, Pakistan

Expected Graduation: 2028

SOFT SKILLS

Problem Solving • Communication • Team Collaboration • Self-Learner
